

# Take a radical look at Coventry...

'The Frank Whittle Arches' - The arches follow the tradition of Frank Whittle by pushing the use of technology. The arch is formed of a pair of aerofoil tubular lattices with perforated stainless steel sheathing. The arches are found outside the City's Transport Museum - Coventry City Council has invested in a regeneration scheme linking the Transport Museum with the Cathedral area.

## integrity... innovation... inspiration

A city with a rich and diverse heritage, Coventry is delivering transformational change to secure its future.

As one of only 20 New Growth Points in the UK, the city is undergoing £9 billion of investment in partnership with public and private sector businesses across the city and its sub-region.

For high tech manufacturers, residential and commercial developers, public or private sector bodies looking to relocate, education providers or companies keen to do business in a dynamic city where there's strong leadership allied with a clear sense of direction and purpose, now is an exciting time to get involved.

As one of the UK's leading independent law firms, Martineau is proud to have played its part in the Coventry success story to date. We look forward to working in partnership with the City to help turn its vision into reality. Advising public and private sector clients alike, we combine technical legal 'know-how' with practical advice and innovative solutions.
