

## Bridging the past, present and future of Salford

New Bailey is an exciting new extension to Manchester's Central Business District. Masterplanned to provide over 2 million square feet of new Grade A, sustainable, high quality office development along with supporting retail, leisure and residential uses, it is set to become the business destination of choice.

This scheme is part of the wider Salford Central project, which includes the Chapel Street neighbourhood and is set to regenerate over 50 acres of Salford's civic and historic centre.

It is being delivered by English Cities Fund through active partnership with Salford City Council and Central Salford Urban Regeneration Company.

A regeneration partnership involving
