

5 reasons why Croydon is the enterprising borough

Times may be tough, but there are 5 good reasons why we believe Croydon's economic prospects are bright.

1

Croydon's new Economic Development Company is giving new focus to our work, creating wealth and opportunities for all our communities.

2

Croydon's £450m public-private 'Urban Regeneration Vehicle' is kick-starting development in the borough, despite the recession.

3

The Croydon Enterprise programme is offering a unique package of support to SMEs and start-ups.

4

Our already excellent transport links are about to get even better, with a new connection to the London Overground network from 2010.

5

Individuals and businesses in Croydon are getting real help and support to tackle the recession head-on.
