

Crest Nicholson Regeneration - working in partnership to create a new sustainable community at Rochester Riverside

One Rochester: supporting the Rochester Riverside Green Charter

Crest Nicholson Regeneration is recognised as the market leader in delivering complex mixed-use development projects.

At Rochester Riverside we are proud to be working with our Partners to help transform the area into a thriving mixed-use community, which will complement the historic town and maximise the potential of the riverside frontage.

The new development will deliver sustainable initiatives that support the Rochester Riverside Green Charter and also provide a:

- Range of attractive, affordable, quality homes
- Variety of public open spaces and amenity areas
- Improved River Walk
- Wide range of commercial and community facilities

Crest Nicholson Regeneration has a proven track record in delivering high quality award winning developments that champion the best principles of sustainability and design. Crest Nicholson also holds the Queen's Award for Enterprise for Sustainable Development and is proud to be playing an important role in this landmark project.
