

HERE FOR THE LONG TERM

building brighter futures...
for people and communities

Working in partnership to regenerate Medway

Orbit Homes is the house-builder and house-seller of the Orbit Group and develops around 350 homes of all tenures every year in the South, investing £70 million in the region. Orbit has worked in Medway for many years, helping to regenerate and redevelop the area, providing affordable homes for local people.

What makes Orbit Homes different from other developers?

- Our social purpose: we re-invest our surpluses to provide new affordable homes and to benefit our residents
- We are here for the long term: we retain ownership of all of our developments and provide Neighbourhood Management services
- We are a Developer of Choice for our partners, stakeholders and staff: we are good to do business with and stand by our decisions
