

Stoke Bridge, Hoo Peninsula

Chatham Bus Station

Mott MacDonald

Global skills, local expertise

For over six years, Mott MacDonald has been working in partnership with Medway Council, helping to realise their regeneration vision for Medway. From the spacious bus station in Chatham that includes the latest public transport communication technology, to the sweeping alignment of the 250m steel girder bridge on the Hoo Peninsula, we have delivered a range of innovative projects starting at planning applications through to final design.

Services provided to Medway Council include:

- Highways design
- Bridge and building structure design
- Building services design
- Communications technology
- Cost consultancy
- Environment and ecology assessments
- Geotechnics
- Transport modelling
