

We are one of the South East's largest providers of **education, training and skills** to the public services

- 94% of our most recent UK graduates are in employment or further study six months after completing their studies \*
- We deliver undergraduate and postgraduate programmes that impact on regional, national and international health and social care agendas and have international research excellence in the Allied Health Professions
- We are the number one choice for local people looking to study at university in Kent \*\*

\* based on Destination of Leavers from Higher Education statistics for 2011-12 academic year  
\*\* based on 2012 UCAS figures
