

Something exciting is happening in the heart of Derby!

Compendium Living is developing the forgotten corners of Castleward. They are building a living, working community with a sense of place, purpose and direction. New and stylish homes are being designed to accommodate those working in the area. The route from the station to the city centre is evolving into a smart boulevard flanked by family homes and apartments. Coffee shops and retail outlets will also feature, making it a pleasant place to browse. Opportunities for new and existing businesses will complement its residential offering. Very soon it will take shape and be a destination where residents, professionals and people passing through will want to meet friends, enjoy lunch or simply relax.

“We are aiming to transform Derby’s east side into a vibrant and exciting new place to live and visit”
Compendium Living

Watch this space! Castleward is on its way...
