

# Supporting the council to positively change the face of Southwark

Grant Thornton's real estate and asset specialists combine an in-depth understanding of public sector finance and funding with expertise in the delivery and financing of major capital assets and regeneration programmes. We are proud to be the strategic financial adviser for Southwark Council's regeneration of the Aylesbury Estate, working with the council to transform the estate through each of the programme's phases.

For more information on our involvement with the Aylesbury Estate project, please contact:
